Focus on Fitness

Site Improvement Plan

2017-2018

Building Upon a Strong Foundation....

Math:

2016-17—compared to other schools in the district for meeting or exceeding expected growth on the MAP

- Highest percentage in math when comparing to Title I Schools,
- 3rd grade had the highest percentage of students meeting or exceeding their goal,
- Black students had the 2nd highest percentage of students meeting or exceeding their goal,
- Hispanic students had the highest percentage of students meeting or exceeding their expected growth,
- EL students had the second highest percentage of students meeting or exceeding their expected growth,
- Special education students had the 3rd highest percentage of students meeting or exceeding their expected growth,
- Students qualifying for free/reduced lunches had the highest percentage in the district of students meeting or exceeding their expected growth.

Reading:

2016-17—compared to other schools in the district for meeting or exceeding expected growth on the MAP

- Highest percentage when comparing to Title I Schools,
- 5th grade tied for 2nd highest percentage of students meeting or exceeding their expected growth,
- Black students had the 2nd highest percentage of students meeting or exceeding their expected growth,
- Students qualifying for free/reduced lunches tied for the highest growth with another school,

2015-2016—MCA Growth

- 86% of students ranked in high growth rate in math; 83 % in high growth rate in reading,
- Out of 25 schools in the Osseo Area Schools, highest growth rate for closing the achievement gap,
- Out of 25 schools in the Osseo Area Schools, ranked 22 out of 25 (25 being the highest growth rate) for overall academic growth.

Goals

Reading

50.75% of students, according to the MCA, will be proficient in reading.

Math

59% of students, according to the MCA, will be proficient in math.

Behavior

87% of K-5 students will participate in at least one engagement activity.

Focus on Fitness

Park Brook Elementary has embraced the research that indicates increasing physical fitness and movement increases academic growth and positive behaviors.

At Park Brook you will notice:

- Kinesthetic seating to increase use of core muscles during instruction which results in 10% increase in brain activity,
- Brain Boosts throughout the day,
- Before/after school fitness opportunities,
- Fitness field trips outside of the school day.

Focus on Fitness is designed to assist with closing the achievement and opportunity gaps.

A Few of the Strategies....

- Additional .5 reading teacher to provide additional instruction for guided reading,
- Intentional emphasis on increasing communication with parents,
- Continuing to adjust and modify opportunities outside of the school day,
- Staff development focused on reading and math (mental models/math talk),
- Combining PBIS and Equity Committees to ensure that we are engaging students of all races in our school community,
- Fitness Interventions for students needing additional movement to meet or exceed their expected goals,
- Mentoring Program,
- Morning Tubs in 1st/ 2nd grades to increase engagement and creative thinking.
