

Hoops and Stats

Student Information

Student Legal Name: _____ Grade Level: _____
Student ID: _____ School Year: _____
School Student Attending: _____

Part I: List and/or attach the requirements/standards that must be met for grade level progression:

7.4.1.1. Use mean, median and range to draw conclusions about data and make predictions.

Part II: The student's learning objectives and/or goal (what needs must be addressed):

Students will be able to collect data on their own shot charts and be able to draw a conclusion on the data they collect.

Part III: Learning experiences that will occur during the entire fiscal year and are necessary for grade progression and how progress will be assessed:

Students will learn/relearn mean, median, mode, and how to make a conclusion from the data. Define mean, median, and mode, and how it will connect to basketball.

Goal 1: Collect real-world data each day.

Method of Assessment: Students will create a running log to track their data progression each day.

Goal 2: Make conclusions from the data collected.

Method of Assessment: Students will complete a data conclusion assessment each trimester.

Participation in the program is optional. A continual learning plan must be developed at least annually for each pupil with the participation of the pupil, parent or guardian, teachers, and other staff; each participant must sign and date the plan as an acknowledgement of the voluntary nature and focus of this program.

Part IV: Signatures

Student: _____ Date: _____

Parent/Guardian: _____ Date: _____

Staff: _____ Date: _____
